## Projects

### Dating App

GITHUB [🔗](#)

A full stack dating application implementing Next Js server actions. Features include: user registration, profile Management, messaging, and filtering based on user preferences.

### Reddit Clone

LIVE [🔗](#) - GITHUB [🔗](#)

A clone of the popular app Reddit. Made in React using TypeScript, styled with Tailwind CSS and Chakra UI. Make new communities, join others. Like or dislike posts from other verified members.

### Movie Database

LIVE [🔗](#) - GITHUB [🔗](#)

Curious about new and upcoming movies? Looking for a classic and wonder which streaming service to watch it on? This solves these issues in a single website. Inspired by Netflix's design this site uses the IMDB database api for up to date movie information and the Youtube api for trailers.
